## About FWEN

**FWEN** specializes in e-commerce and cargo **analytics**. We help businesses identify problems, understand what can be improved, and find practical solutions. From e-commerce platforms to internal business systems, we provide recommendations that help businesses improve their operations and overall performance.

## Problem Statement

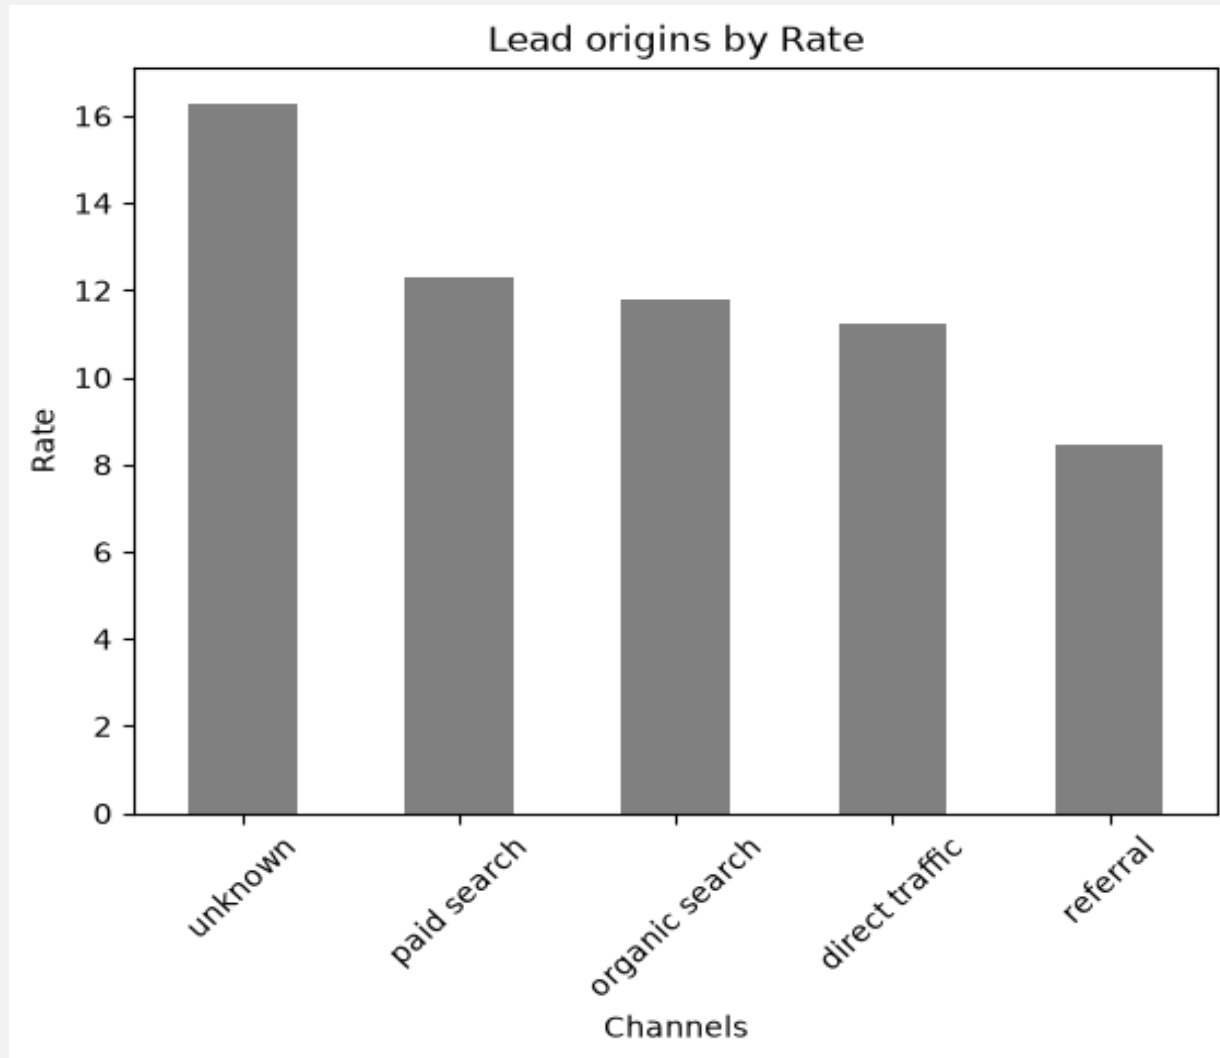

Between **2017 and 2018** in **Brazil**, **Olist** faced inconsistencies in **sellers performance** across **sales, revenue, and customer satisfaction**, while lacking a clear understanding of what distinguishes successful sellers. This may **negatively** affect **customer experience** and **business performance**, creating a need to better understand its seller base and identify opportunities to increase profitability.

---

# Objectives

- Identify successful and underperforming sellers
  - Evaluate seller acquisition and conversion rates
  - Compare seller types and their performance
  - Identify factors associated with seller success
  - Recommend solutions to improve seller selection
-
